Strips, coils, sheets & plates

Tell us your specifications. We will confirm availability and supply terms.

Strips & Coils

Includes slit coils and CR coils. Share grade, thickness, width, finish, coil weight and quantity.

Sheets & Plates

Specify the material grade, thickness, width, length and required quantity.

Pipes & Tubes

Include grade, diameter or section size, wall thickness, length and quantity.

Flanges

Share the flange type, material grade, size, pressure rating and applicable standard.

Pipe Fittings

Specify the fitting type, material, size, wall thickness or schedule and quantity.

Structural Steel

Send the section type, dimensions, grade, length and quantity.

Slit coils - part of our Strips & Coils range

For slit coils, specify grade, thickness, slit width and tolerance, edge or burr condition, coil inner and outer diameter, maximum coil weight and quantity per width. Include the delivery destination, required date and any packing or documentation requirements.

Material grades, sizes, quantities and lead times are confirmed before quotation.
